

Versatility

- CPE-Only, Tri-Mode (AP/CPE/PtP), Mesh, Full-Duplex Backhaul, and Full Routing Access Points
- Full Range of 900MHz, 2.4GHz, 4.9GH, and 5.8GHz Indoor and Outdoor Products
- 5/10/20MHz Programmable Channel Bandwidths
- Connectorized and All-in-One Units with High-Gain Integrated Directional Antenna

COMMUNICATE WITHOUT BOUNDARIES

Performance

- Robust OFDM Technology
- High Output Power with Programmable Gain
- Hardware-Accelerated Encryption and QoS Engines
- Solar Friendly Power Draw—as little as 4W
- High Real UDP Throughput of up to 28Mbps
- Extended Range of up to 55KM

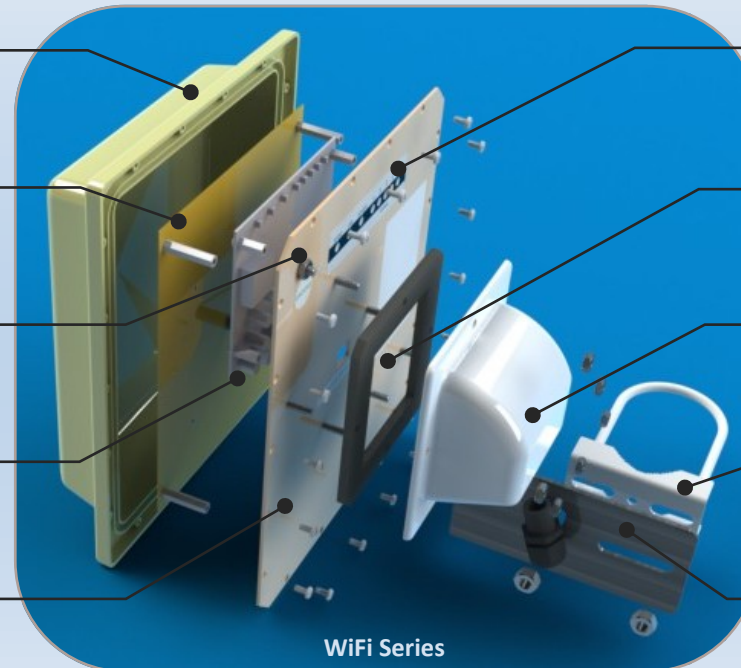

Automotive-Grade Weather-Resistant Radome

All-in-One Models with Integrated Panel Antenna or N-Type Female Connector

Built-in Grounding Terminal and Surge Protection

High Performance CPU and Radio with Dual-Flash Image for Fail-Safe Firmware Upgrades

Marine-Grade Corrosion-Resistant Aluminum Back Panel with Stainless PEM® Hardware

WiFi Series

Daylight Visible Status Indicators and Antenna Alignment LEDs

PoE-Enabled Single or Dual-Ethernet Ports for Daisy Chaining up to Two Additional Radios

Watertight Ethernet Boot Cover, Gasket, and Strain-Relief

Galvanized Heavy-Duty Pole-Mounting Hardware with up to $\pm 10^\circ$ Up/Down Tilt

Reversible Mounting Bracket for Horizontal or Vertical Antenna Polarization

Reliability

- Weatherproof IP67 and NEMA Type 4X Enclosure with Machine Inserted Stainless PEM® Fasteners
- Rugged Outdoor Design for Handling Extreme Temperatures from -65°C to $+60^\circ\text{C}$
- Dual-Flash Image for Fail-Safe Remote Firmware Upgrades
- Built-in Surge Protection for up to 2200 Volts
